

# GRADUS

Hard-wearing

Slip-resistant

## Stairtile™

Stairtile is a rubber composite material designed to provide a hard-wearing, slip-resistant finish for stairs and floors

# Stairtile

Gradus is a market leader in stair safety solutions and offers the widest choice of stair profiles designed to help create a safe and inclusive environment, balancing the values of safety, performance and aesthetics

Due to its durability, it can be installed in a wide range of applications and will withstand heavy traffic

Retail

Car Parks

Transport

Stairtile can be used in ramps as a robust and safer solution to slip-resistant tape that is likely to require routine replacing, saving on cost and minimising disruption

Ramp

Stairs

Stairtile is suitable for use in both internal and external applications

Internal

External

It can be supplied as a complete stair covering or as an insert set into terrazzo, wood and concrete

Stairtile set into terrazzo

Stairtile set into concrete

Stairtile set into wood

### Stairtile - OT51D

Dovetailed bottom, designed to be pre-cast into the step edge. Offered in a range of widths from 16-500mm and stock lengths. Requires no mechanical fixings.

### Stairtile - OT51F

Designed for retrofit situations to provide slip-resistance near to the edge of the step edge. Offered in a range of widths from 12-500mm and stock lengths, pre-drilled for mechanical fixing.

### Stairtile - OT51R

Designed to be rebated into the step edge to provide a rounded, slip-resistant edge to the step. Offered in a range of widths from 12-500mm and stock lengths, pre-drilled for mechanical fixing.

## Stairtile - 25mm discs

Versatile discs to provide slip-resistance across a number of different applications. Supplied in three different sized diameters.

25mm Disc

38mm Disc

50mm Disc
