Description

The Gradus WGS125 Wall Guard offers superior direct impact protection against wheeled traffic and incorporates an internal impact bumper to provide reinforced protection and absorption at the point of impact. Modular in design for easy installation and replacement in the event of damage, the WGS125 Wall Guard includes a PVC-u cover, PVC-u inner bumper, choice of aluminium retainer or PVCu- retainer and colour-matched end caps. End caps include reveals to provide a tight, neat joint and contain an anti- microbial additive to inhibit the growth of bacteria. All PVC-u covers and accessories are non-reflective, through coloured and textured to conceal the effects of impact and abrasion. Light Reflectance Values (LRVs) are detailed above for all colours.
