PROJECT:  
MEDICINEMA HOSPITAL

Boulevard 6000 Secondary Barrier Carpet in Indigo

RNT1218L with blue Interlok Advance LED's and Poppy Insert

## Gradus primary barrier matting & secondary carpet

### Project Management:

- Supply & fit - material and labour procurement
- Quotation - BOQ & drawing take-offs
- Design advice
- Site visits / surveys
- Measurement

### Application:

Secondary barrier carpet was installed between door thresholds in the lobby of the MediCinema to ensure safe and easy access for wheelchairs and beds.

### Product Specified:

- Boulevard 6000 Secondary Barrier Carpet  
**Colour:** Indigo

### Area Installed:

- Stairs and floor in auditorium

## Gradus cinema lighting

### Project Management:

- Supply & fit - material and labour procurement
- Quotation - BOQ & drawing take-offs
- Design advice
- Site visits / surveys
- Measurement

### Application:

LED illuminated stair edgings were fitted on the main staircase of the MediCinema to highlight the step edge for patients and carers in darkened conditions during film performances. LEDs were also installed at the entrance and at floor level along each wall as additional guidance to seating areas.
