Project: Nantgarw Campus Coleg y Cymoedd (College of the Valleys)

“ The end user was so pleased with the final result they chose to work with Gerflor and Carpet Services for other areas of the refurbishment programme across the entire campus. ”

Tony Thorne
Specification Manager, Gerflor, South Wales

The Nantgarw student campus, part of Coleg y Cymoedd in Wales, embarked on a significant refurbishment project, focusing on upgrading their library and other key areas. The project prominently featured Gradus products, supplied by international flooring specialist Gerflor.

Initially, the client needed to replace the library flooring to match their black and green colour scheme. Gradus Streetwise Design with Emphasis and Stratus was chosen, covering approximately 300m². The client was so pleased with the result that they decided to extend the refurbishment across the entire campus, specifying a total of 5300m² of Gerflor products.

The main college building saw the use of Gradus Stratus 'Jetstream' across multiple floors and corridors, with classrooms, library, and office areas featuring Gradus Streetwise in 'Green,' 'Orange,' and 'Blue,' along with Gradus Emphasis Loop in matching colours. The wood-working area benefited from 100m² of Tarasafe Ultra safety flooring in 'Granite,' and the entrance areas were fitted with 100m² of Gradus Boulevard Stripe in 'Raven' and 100m² of Boulevard 6000 in 'Nightfall'. In the Sports Centre of Excellence, the installation included Taraflex Performance, Powershock 300 Gym Tile, and Tarasafe Ultra 'Opal'.

Project: Nantgarw Campus Coleg y Cymoedd (College of the Valleys)

The installation began at the end of May and was completed by September 2nd, in time for the new term. Ray Gallivan, Contract Manager at Carpet Services, praised the ease of laying Gerflor and Gradus products, highlighting their quality and user-friendliness.

The refurbishment of Nantgarw Campus at Coleg y Cymoedd showcases the versatility and quality of Gerflor and Gradus products. The successful transformation of the library led to a broader application of Gerflor and Gradus solutions across the campus, enhancing various facilities and ensuring a cohesive, high-quality finish throughout.
