

Matting

Project: The Gate, Newcastle

Leisure

“ The Gate welcomes over eight million people to its facilities each year so we needed to specify a durable matting solution that could cope with the demands of this heavy traffic environment. We are delighted with the standard of the new matting installed by Gradus. It gives the entrance a sleek, modern and professional appearance to visitors entering The Gate. ”

Paul Staines
Site Services Manager for The Gate

The Gate is Newcastle's premier leisure and entertainment centre, with a wide range of restaurants and cafes, pubs, bars and clubs as well as the North East's most exciting casino. It has recently undergone a refurbishment including a brand-new foyer area.

Gradus supplied and fitted Esplanade 6000 primary barrier matting to the main entrance, side entrances and all lift lobby and stairwell areas leading from the carparks. The mat features 100% solution dyed nylon wipers from the Boulevard 6000 range which provide excellent soil and moisture retention.

Esplanade 6000 helps to reduce the amount of tracked-in dirt and moisture, reducing maintenance costs and prolonging the lifecycle of the surrounding floorcovering whilst reducing the risk of slips and trips caused by wet flooring. Suitable for both foot and wheeled traffic Esplanade 6000 allows for an inclusive environment for all visitors to the centre in line with the Equality Act 2010.
