

Wall Protection

Project: Macclesfield Hospital

Healthcare

“ We are delighted to donate our new SureProtect Artworx cladding to Macclesfield Hospital. The project has been a truly great collaborative effort between the MDGH, Gradus and Gilling Dodd Architects. This initiative underscores our stance on supporting our local community. SureProtect Artworx not only enhances the aesthetic appeal of the hospital environment but also provides protection to the wall substrate, ensuring ease of maintenance. We believe this contribution will make a significant positive impact on both patients and staff at the hospital. ”

Wall Protection Sales Manager at Gradus

Gradus donates SureProtect Artworx to Macclesfield District General Hospital for new mural

Gradus recently demonstrated its commitment to community support by donating its innovative SureProtect Artworx bespoke wall cladding solution to Macclesfield District General Hospital (MDGH). This donation was specifically aimed at enhancing the children's waiting area in the Accident & Emergency Department (ED).

Chris Jackson, Wall Protection Sales Manager for Gradus reached out to East Cheshire NHS Trust, looking for an opportunity for Gradus to collaborate on a project that would benefit the local community. On a walk around MDGH, the idea of creating a mural in the children's ED waiting area was initiated. Gilling Dod Architects were commissioned to create a large-scale digital artwork, taking inspiration from the local landscape and wildlife in the Peak District.

The donated SureProtect Artworx was used to create a stunning mural on a 5.5-meter by 2.4-meter wall, inclusive with printed trims to create a seamless finish. The mural features a modern geometric nature-inspired theme, incorporating stylized representations of trees, hills, and animals in a range of green, brown, and blue tones. This design not only adds aesthetic value but also creates a calming and engaging environment for young patients and their families during their hospital visits. The cladding is easy to clean and maintain, making it ideal for healthcare settings where hygiene is crucial.

This MDGH project was completed at no cost to them, as Gradus generously donated all the SureProtect Artworx cladding as well as their installation team to fit the stunning mural, and Gilling Dod design the bespoke artwork.
