

# The GRADUS Knowledge

## Food FOR Thought

We'll provide the food (and product expertise!) to help you think around your projects

Stair Edging

Wall Protection

Entrance Matting

Carpets

Lighting

Book one of our informal and project-tailored seminars and we'll endeavour to leave you feeling full of ideas  
Call 0800 021 4534 to book your seminar today or go to [www.gradus.com](http://www.gradus.com) for more information

# + CPD

Add an optional CPD to your seminar, we have 3 to choose from.

Please turn over for more information

# The GRADUS Knowledge

## CPD

Each seminar we offer is worth 2 RIBA hours as part of the core curriculum and lasts approximately 30 minutes, with time for questions afterwards. These are also typically delivered during lunch and we are happy to work with you to provide lunch, or snacks should you choose an alternative to lunch time.

### 1. The Specification & Design Considerations of Stair Edgings

This seminar provides an overview of the issues to consider for the design and specification of stair edgings, including relevant legislation and the latest guidance and research. It will help you to understand the following topics:

- Understand stair safety in general
- Understand how to create safe stairs
- Understand how stair edging can be incorporated into your designs
- Understand visual contrast & slip resistance when specifying stair edging

Material type: Seminar

RIBA Core Curriculum:

- Design, construction and technology
- Health, safety and wellbeing
- Legal, regulatory and statutory compliance

Knowledge level: General Awareness

### 2. The Specification & Design Considerations of Barrier Matting Systems

Architects will gain information that will help them to specify entrance matting systems effectively, where and how to use it, ideas on how to use it, types of product available etc.

Material type: Seminar

RIBA Core Curriculum:

- Design, construction and technology
- Health, safety and wellbeing
- Legal, regulatory and statutory compliance

Knowledge level: General Awareness

### 3. The Specification & Design Considerations of Wall, Corner & Door Protection Systems

This seminar will give the specifier all he or she needs to know to make the most effective decisions when specifying interior protection.

Material type: Seminar

RIBA Core Curriculum:

- Design, construction and technology
- Health, safety and wellbeing
- Legal, regulatory and statutory compliance

Knowledge level: General Awareness
