Overall post diameter: 123mm x 3.5mm Wall

Rubber Buffer: 215 x 242mm

Heights (select as required): 600mm (product code: BP-600-Y), 800mm (product code: BP-800-Y), 1000mm (product code: BP-1000-Y)

Colour: Yellow (RAL 1003)

Fixing: Mechanical (screw) fix – as per manufacturer's instructions

Description

A range of protection posts offering a medium impact, low-cost alternative to high-impact bollards. Protection posts are ideal for protecting pedestrian doors, corners and vulnerable services and provide a low maintenance solution as they do not require repainting. The protection posts comprise a galvanised steel core and baseplate (114mm diameter), a rotating polyethylene sleeve (Yellow RAL 1003) and rubber top caps incorporating diamond grade reflectors. Suitable for use in both internal and external environments, in all weather temperatures (-40 to +90 degrees).
